## **Exporting from Mendeley Desktop to RefWorks**

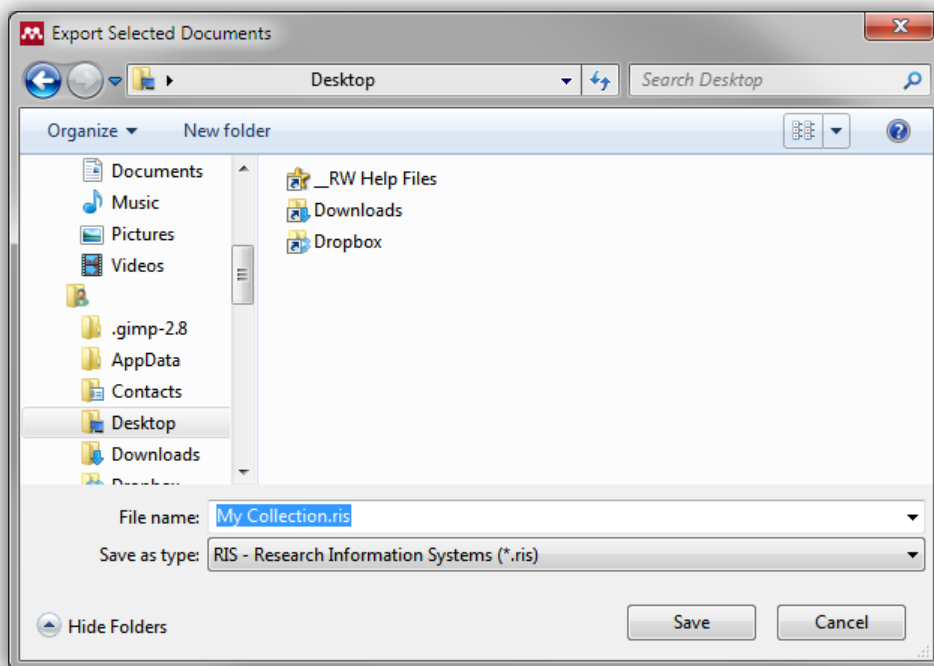

April 2013

## Exporting from Mendeley Desktop to RefWorks

1. Begin by selecting those items you wish to export from Mendeley Desktop from the **All Documents** area shown in the square below.
2. Then select the **File > Export** menu item to create an export file.

3. Select the **RIS – Research Information Systems** file type for your exported file and save the file to an easy-to-find location on your computer.

4. Log in to RefWorks.

5. Select **References > Import** from the toolbar.
6. Select *RIS Format* as the data source and *RIS Format* as the database.
7. Browse to find the text file you saved to your computer.

**Import References**

**Import From** [Request a Filter](#) [List of Filters & Databases](#)

▼ **From Text File**

Import Filter/Data Source:

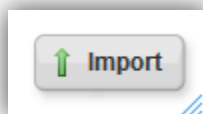

Database:

Select Text File:  My Collection.ris

Encoding:

Specify only if you specifically set the encoding when saving the text file; otherwise leave it as is

8. Click **Import**.

9. Your records should appear in the **Last Imported Folder**.
